Institutional Class: WGGSX	35.23	8.50
MSCI AC World Index	16.25	18.54

Data shows past performance and is not indicative of future performance. Current performance may be lower or higher than the data quoted. For the most recent month-end performance data, visit wasatchglobal.com. Investment returns and principal value will fluctuate and shares, when redeemed, may be worth more or less than their original cost. The Advisor may absorb certain expenses, without which total returns would have been lower. Wasatch Funds will deduct a 2% redemption fee on Fund shares held 60 days or less. Performance data does not reflect this redemption fee or taxes.

SECTOR ALLOCATION

Weights are calculated as a percentage of total net assets including cash & cash equivalents.

COUNTRY ALLOCATION

	Fund	Index		Fund	Index
Developed	84.5%	89.0%	Emerging and Frontier	15.6%	11.0%
United States	52.1	62.4	India	12.1	1.7
Japan	7.8	5.4	Taiwan	3.5	1.5
United Kingdom	4.7	3.6	Other		7.8
Ireland	3.7	0.1			
Sweden	3.5	0.8			
Denmark	3.4	0.6			
France	3.1	2.6			
Other	6.2	13.4			

Weights are calculated as a percentage of total net assets including cash & cash equivalents.

Investing in small or micro cap funds can be more volatile and loss of principal could be greater than investing in large cap or more diversified funds. Investing in foreign securities, especially in emerging and frontier markets, entails special risks, such as currency fluctuations and political uncertainties, which are described in more detail in the prospectus. Being non-diversified, the Fund can invest a larger portion of its assets in the stocks of a limited number of companies than a diversified fund. Non-diversification increases the risk of loss to the Fund if the values of these securities decline. Objective: Long-term growth of capital.

An investor should consider investment objectives, risks, charges and expenses carefully before investing. To obtain a prospectus, which contains this and other information, visit wasatchglobal.com or call 800.551.1700. Please read the prospectus carefully before investing.

Index represents MSCI AC World Index.

The MSCI AC World TR Net Index is an unmanaged index capturing large and mid-cap representation across 23 developed markets and 23 emerging markets. You cannot invest directly in any index.

Country Allocation is defined by the MSCI Country Classification Standard and may differ from the economic country classification used to determine qualifying investments. **Est. 5-year EPS Growth %:** Estimated percentage increase in earnings per share (EPS) per year of the fund's holdings over the next 5 years. Returns are not guaranteed and may be higher or lower. Source: Wasatch and FactSet. **P/E Ratio (forward):** Sum of stock prices of the fund's holdings divided by the aggregate earnings per share of those holdings for the next 12 months. **Market Cap:** Weighted average market capitalization of companies held by the fund, median is the midpoint. **Portfolio Turnover:** A measure of trading activity in a fund's portfolio over the past 12 months expressed as a percentage of the fund's average total assets. **Alpha** measures a fund's risk/reward potential. A positive alpha means the fund outperformed the index. A negative alpha means the fund underperformed the index. **Beta** measures a fund's sensitivity to market movements. The beta of the market is 1.0 by definition. **R-Squared** measures (from 0 to 1.0) how closely a fund's movements are correlated with movements of its benchmark. An R-squared of 1.0 would mean that the fund's movements are completely correlated with the movements of its benchmark. **Active Share** measures the difference between portfolio holdings and the benchmark. **Standard Deviation** measures the degree to which a fund's performance has varied from its average performance over a particular time period. The greater the standard deviation, the greater a fund's volatility (risk). **Upside Capture** explains how well a fund performs in time periods where the benchmark's returns are greater than zero. **Downside Capture** explains how well a fund performs in time periods where the benchmark's returns are less than zero.

Wasatch Funds are distributed by ALPS Distributors, Inc.

Fund holdings are subject to risks and may change at any time. References to specific securities should not be construed as recommendations by the Fund or its Advisor.
